

**FLORIDA DEPARTMENT OF
ENVIRONMENTAL PROTECTION**

**Division of Recreation and Parks
Application for Scientific Research/Collecting Permit**

Not for Archaeological Research. Contact Division of Historical Resources for a 1A-32 Permit.

Date of Application: _____

Title of Project/Study: _____

Keywords (3-5 keywords to quickly identify project subject & scope): _____

Section I. Contact & Background Information

Applicant/Principal Investigator Name: _____

Address: _____

Phone: _____

Email Address: _____

Affiliation: _____ **Occupation:** _____

If student, Major Professor's Name: _____

Address: _____

Phone: _____ **Email Address:** _____

Additional investigators to be Authorized under Permit: _____

Name	Phone	Email Address

**FLORIDA DEPARTMENT OF
ENVIRONMENTAL PROTECTION**

**Division of Recreation and Parks
Application for Scientific Research/Collecting Permit**

Have you or any of the above-listed investigators above previously had an FPS research/collecting permit? Yes No

If Yes, give permit number(s) _____

Qualifications: Provide background summary or curriculum vitae for principal and additional investigators. Identify training and qualifications relevant to the proposed project, including previous research projects.

Are any other state or federal permits required for this activity? If so, please explain.

Section II.A. Scientific Research Information: Please answer all questions. A scientific research proposal may be attached and referenced to provide additional detail for the questions in sections II.A and II.B.

If known, in the space below please list the names of all State Parks to be included in this permit. If unknown, proceed to next question.

If unsure of specific parks to include, select one or more of the boxes below.

All State Parks

All District 3 Parks (Central)

All District 1 Parks (Northwest)

All District 4 Parks (Southwest)

All District 2 Parks (Northeast)

All District 5 Parks (Southeast)

**FLORIDA DEPARTMENT OF
ENVIRONMENTAL PROTECTION**

**Division of Recreation and Parks
Application for Scientific Research/Collecting Permit**

Activity Type (Check all that apply)

Research:

- Monitoring or inventory that does not include handling or collection of specimens/natural objects
- Temporary capture and handling/marketing specimens and release in place undamaged

Collection:

- Natural objects/specimens will be collected and vouchered at a museum or scientific institution
- Natural objects/specimens will be collected and destroyed through analysis or discarded after analysis

Other

Explain:

Project Start Date: _____ **Project End Date:** _____

Objectives of the Study: (Where appropriate the objectives should be stated as a specific hypothesis to be tested)

Describe the return benefits this project will provide to the Florida Park Service:

Describe the importance or contributions this project has to conservation/science:

Scientific Method and/or Procedures (describe each in detail where applicable)

1. Proposed Study design:

2. Methods:

3. Equipment to be used:

4. Number of sites or location in EACH PARK:

5. Safety or procedural protocols:

6. Describe the analytical techniques/data analysis that will take place as a part of this study:

II.B. SCIENTIFIC COLLECTING INFORMATION

Complete this section if project will include handling or collection of specimens or natural objects

Describe why handling or collecting of specimens is necessary in lieu of field observation or photography:

Description of species or samples to be collected (describe each in detail)

1. Taxonomic name or group, if applicable:

2. Number of specimens or samples for each species or natural object, per PARK:

3. Frequency of sampling in each park during the permit period:

4. Percent of each park's overall population to be sampled:

5. Size / volume of each specimen or sample:

6. Other parameters that will provide information for review purposes:

7. For collection involving the potential for non-target lethal by-catch or negative impacts to fauna or flora, please describe methodologies and considerations for limiting the negative consequences related to impacting non target-species:

Please complete for each institution that will receive and permanently retain specimens or samples:

Institution Name and Address: _____
Responsible Official Name: _____
Title: _____
Phone #: _____
Email Address or Website: _____

Institution Name and Address: _____
Responsible Official Name: _____
Title: _____
Phone #: _____
Email Address or Website: _____

Above Organization(s) has agreed that all collected specimens described in section IIB will be deposited and maintained as outlined in the *General Guidelines and Standard Conditions For Scientific Research and Collection Permits (condition # 32)* Yes No

If No, Explain:

III. PRODUCTS AND DELIVERABLES

Describe the expected publications, reports, and materials. Include information regarding whether or not GPS coordinates, GIS maps/shapefiles, voucher numbers, photos, models, raw data, etc. will be generated as part of this study and list which ones will be made available as part of the required final report for this permit. Be specific and thorough.
